Who we are

Web Soft BD was established by a group of professionals with a desire to provide the best **ICT (Information Communication Technology)** Solutions in Bangladesh and abroad. We are experienced in Development of Agro-Meteorology System, Portal Development, Apps Development, A.I. Solution Domain Expert Services, Software Development, Data Center Solution, Networking, Server Solution, ERP Solution, Web Solution, Mail Solution, Corporate Support & Consultancy. We offer cutting edge solutions for today's interactive web sites.

At present is actively involved in operationalization of the **World Bank** funded project entitled **"Agro-Meteorological Information Systems Development Project,** Component-C of Bangladesh Weather and Climate Services Regional Project in Department of Agricultural Extension (DAE), Ministry of Agriculture(MoA), Bangladesh. Under this project, WEB SOFT BD has developed a dynamic and interactive portal named "**Bangladesh Agro-Meteorological Information (BAMIS) portal (**www.bamis.gov.bd/**).** The portal is very popular in Bangladesh. Besides, World Bank and other national and international organization appreciated the services rendered to the farmers in Bangladesh through this portal. And, we are also developed & maintained National Portal: "**Bangladesh Meteorological Department (BMD)**, (www.bmd.gov.bd), Ministry of Defense, Bangladesh. BMD is providing warnings, meteorological services, meteorological data, information, forecasts, SPI, Seasonal & Sub seasonal Forecast and various related products, which are **important for the smooth functioning of many aspects in economy, administration, agriculture, marine & society**.

Under this project, WEB SOFT BD has developed a dynamic and interactive Portal, Apps, Software, Weather Automated Dissemination System, Meteorological Data Assessment Sub System, Earth Quack Apps and other ICT services. And, also developed & operationalization of the "**Bangladesh Water Development Board (BWDB) (www.bwdb.gov.bd)** Ministry of Water Resources, Bangladesh. Under this project, **WEB SOFT BD** has developed of hydrological services products such as sediment prediction & river bank erosion, hydrological drought prediction, salinity intrusion forecast, ground water outlook and forecast, surface water supply outlook etc. and upgrade of existing website to display real time data, products & warnings. **WEB SOFT BD** is also technical service provider of **Smart Irrigation Service for Bangladesh Department of Agricultural Extension,** Landsat-based Irrigation Tracking system in **University of Washington, USA (www.iras.bamis.gov.bd). We** has been worked to construct **SMRC's (SAARC Meteorological Research Centre)** portal. Initially, farmers were offered free hydro-meteorological products (flood, drought, and cyclone) through a local NGO. We are also developed & maintaining Portal **of** www.dmgi.com.sg, www.nocban.org, www.polycables.com.bd, www.archerybangladesh.org, www.sunlifeinsbd.com, & Others National, International Organization.

Halogen Free Low Smoke (HFLS) Cable
Absence of non-corrosive gases.
Corrosive gases by themselves or when combined with atmospheric moisture or with fire fighting appliances produce highly corrosive acids which damage plant, machiner equipment. Emissions of non-corrosive gases help to prevent such extensive damage large savings. It does emit limited toxic and halogen gases.
